# CAMPAIGN WINDS

London, Dec. 5-The British political campaign wound up today in a blaze of oratory, and tomorrow the fate of the Baldwin cabinet will be decided at the polls.

A feature of the last 48 hours of the campaign was the growth in violence and rowdyism in various quarters. Candidates were threatened or attacked. Lord and Lady Eustace Percy were injured in an election riot at Hastings.

A heavy vote, especially by the women, is expected.

Pierre, S. D., Dec. 5.-William G. McAdoo was the choice of South Dakota Democrats for president in their proposal convention. That Mr. Mc-Adoo would be selected was indicated, when the McAdoo forces won over the Henry Ford backers on a test

In the Republican proposal convention, President Coolidge received endorsement as the state's choice for the presidential nomination next summer. Coolidge received 50,379 proposal votes to Senator Hiram Johnson's 27,340.

The third party elements, including the Farmer-Laborites, will hold a convention in St. Paul, May 20, at which time it is expected a candidate for president will be decided upon. The Farmer-Labor party group indorsed Senator LaFollette for president over Henry Ford by a vote of

37,000 to 7,000. The convention, held under the South Dakota law, is unique in American politics. Representatives of each party meet and determine their choice for candidates and the platform on which the candidates will stand.

In the Republican camp the contest was between forces representing President Coolidge and Senator Hiram Johnson. Local state politics Pittsburg, Pa. Dec. 5-An uniden- played an important part in the selec-

FILIPINOS PASS BILL OVER WOOD'S VETO

The bill remitting penalties on delinquent land taxpayers, vetoed by Gevernor General Wood, was unanimously passed over the veto by the Philippine Legislature. The bill now goes to Washington for President Coolidge's consideration.

lature of its passing a bill to be sent to Washington for the President's consideration over the veto of the Governor General. The bill proposes to remit all penolties for the non-payment of the land

This is the first instance since the organization of the Philippine Legis-

tax for the calendar year 1923. The bill had been vetoed by Wood at the last session of the Legislature.

The real purpose of the Legislature's action it is agreed, is not so much, to achieve a remission of penalties for non-payment of the land tax as to check up to President Coolidge the status of the Governor General of the islands with regard to internal affairs,

President Coolidge has upon several occasions expressed his confident in the Administration of Governor General Wood and recently, through Secretary Weeks, assured him of his hearty support.

Here's an easy way to save \$2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-

place in your home.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly

this home-made remedy conquers a cough—usually in 24 hours or less.

cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments. # Young men wanted

for the fascinating profession of Davey Tree Surgery

Permanent positions for good men

John Davey's organization, The Davey Tree Expert Company, Inc., has a limited number of openings for ambitious young men between 20 and 30 years of age. Single men are preferred.

These positions are permanent and offer a lifetime opportunity to men who make good. The business of the Davey Company approximates one million dollars per year and is limited only by the number of capable men who can be trained for responsible positions.

No experience in Tree Surgery is required. We furnish the necessary training to the right kind of young men. This training is very thorough, embracing intensive work both in the field and later in the class room.

Tree Surgery is intensely interesting. It is professional work of high standing and dignity, and develops a fine scientific knowledge that is invaluable.

It offers robust health—outdoor work in the fresh air and sunshine, with properly balanced exercise. It is the ideal profession for the young man who wants to get away from the grind and monotony of indoor work. It is a wonderful physical developer.

The pay is good at the start and the opportunity for advancement is unusual. There is plenty of room at the top for good men. Work with the Davey Company offers an unusual chance to travel and see many parts of this country, with carfare paid by the company from one place to another.

Only the finest types of clean, red-blooded young Americans are employed by the Davey organization, and only young men of this' kind need apply. A high school education or its equivalent is desired. We also require fully satisfactory references as to honesty, dependability and willingness to work.

#### Mail coupon for details

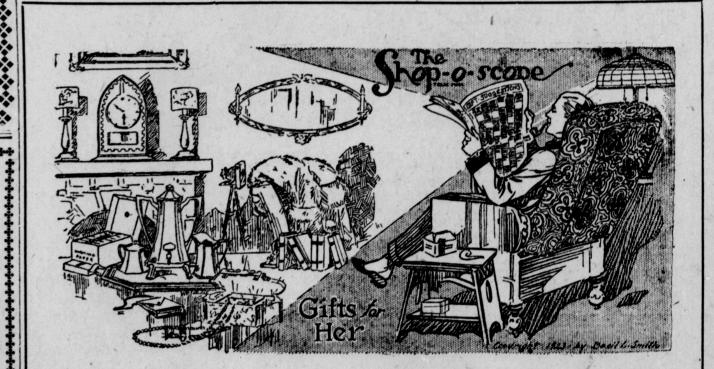

Only a limited number of good men can be accommodated each year. If you think you qualify-if you are looking for interesting outdoor work with a real chance for advancement-it will be to your benefit to act promptly. BY FIRE TUESDAY A two-story frame double tenant house, the property of the C. N and I. Department of Wilberforce University, situated on the Columbus pike, was totally destroyed by fire, Tuesday at noon. The fire was discovered at twelve o'clock, in the attic, and before university students could attach a hose to fight the flames, the structure was destroyed. The fire is thought to have been

caused by a defective flue. The house was occupied by Grover Hardin, director of auto mechanics at the university, and family, and Lewis H. Hamon, teacher of plumbing at Wilberforce.

The entire contents of the house were destroyed including all the clothing of the Hardin family. There was no insurance on either the house or contents. The property is valued at between six and seven thousand dollars.

# **CLEAN KIDNEYS**

Take Salts to Flush Kidneys If Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and ur-

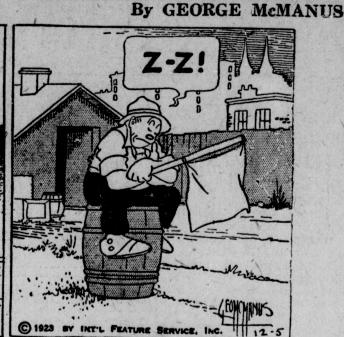

inary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia. and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving

bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithiawater drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By al! means have your physician examine your kidneys at least twice a year.

So when she went to ped, with Lee's kiss upon her lips she felt instinctively that the little drama which circumstances were unfolding about her would require some quick action on her part if she wished to remain its most important figure.

"Why don't you get Jim to take you fishing this morning?" she suggested to Dale after breakfast.

Dale stood by the fireplace gazing musingly into the blaze. He kicked back a smoldering les which had fal-len to the edge of the hearth but said nothing.

"Brownie wil be giad to let Jim take you," she went on, urging him sweetly. She was determined in her purpose.

In the Republican proposal convention, President Coolidge received endorsement as the state's choice for the presidential nomination next summer. Coolidge received 50,379 proposal votes to Senator Hiram Johnson's 27,340. The third party elements, includ-

37,000 to 7,000. The convention, held under the South Dakota law, is unique in American politics. Representatives of each party meet and determine their choice for candidates and the platform on which the candidates will

stand. In the Republican camp the contest was between forces representing President Coolidge and Senator Hiram Johnson. Local state politics Pittsburg, Pa. Dec. 5-An uniden- played an important part in the selec-

This is the first instance since the organization of the Philippine Legislature of its passing a bill to be sent to Washington for the President's consideration over the veto of the Governor General.

The bill proposes to remit all penolties for the non-payment of the land tax for the calendar year 1923. The bill had been vetoed by Wood at the last session of the Legislature.

The real purpose of the Legislature's action it is agreed, is not so much, to achieve a remission of penalties for non-payment of the land tax as to check up to President Coolidge the status of the Governor General of the islands with regard to internal affairs,

President Coolidge has upon several occasions expressed his confident in the Administration of Governor General Wood and recently, through Secretary Weeks, assured him of his hearty support.

While the classification of postoffices is based on the amount of stamped matter business done by any office in a year, salaries of postmasters are based on the amount of total business carried on by that office. Thus money orders, War Savings Stamps, internal revenue and other means of income are considered in fixing the salaries.

The Xenia office has probably been a second class postoffice for 35 or 40 years, according to an estimate although its beginning may have been as humble as a fourth class office. Other offices in the country are third and fourth class offices, he said.

# Young men wanted

for the fascinating profession of Davey Tree Surgery

Permanent positions for good men

John Davey's organization, The Davey Tree Expert Company, Inc., has a limited number of openings for ambitious young men between 20 and 30 years of age. Single men are preferred.

These positions are permanent and offer a lifetime opportunity to men who make good. The business of the Davey Company approximates one million dollars per year and is limited only by the number of capable men who can be trained for responsible positions.

No experience in Tree Surgery is required. We furnish the necessary training to the right kind of young men. This training is very thorough, embracing intensive work both in the field and later in the class room.

Tree Surgery is intensely interesting. It is professional work of high standing and dignity, and develops a fine scientific knowledge that is invaluable.

It offers robust health—outdoor work in the fresh air and sunshine, with properly balanced exercise. It is the ideal profession for the young man who wants to get away from the grind and monotony of indoor work. It is a wonderful physical developer.

The pay is good at the start and the opportunity for advancement is unusual. There is plenty of room at the top for good men. Work with the Davey Company offers an unusual chance to travel and see many parts of this country, with carfare paid by the company from one place to another.

Only the finest types of clean, red-blooded young Americans are employed by the Davey organization, and only young men of this kind need apply. A high school education or its equivalent is desired. We also require fully satisfactory references as to honesty, dependa-bility and willingness to work.

A two-story frame double tenant house, the property of the C. N and I. Department of Wilberforce University, situated on the Columbus pike, was totally destroyed by fire, Tuesday at noon. The fire was discovered at twelve o'clock, in the attic, and before university students could attach a hose to fight the flames, the structure was destroyed. The fire is thought to have been caused by a defective flue.

The house was occupied by Grover Hardin, director of auto mechanics at the university, and family, and Lewis H. Hamon, teacher of plumbing at Wilberforce.

The entire contents of the house were destroyed including all the clothing of the Hardin family. There was no insurance on either the house or contents. The property is valued at between six and seven thousand dollars.

# **CLEAN KIDNEYS**

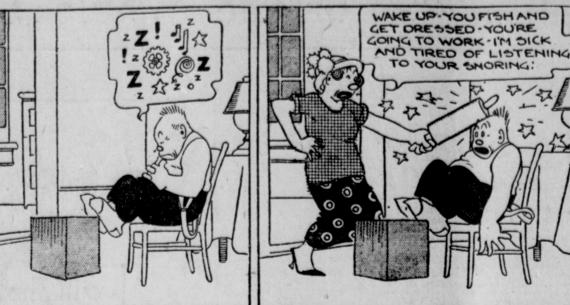

Take Salts to Flush Kidneys If Bladder Bothers or Back Hurts

Eating too much rich food may produce kidney trouble in some form says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and ur-

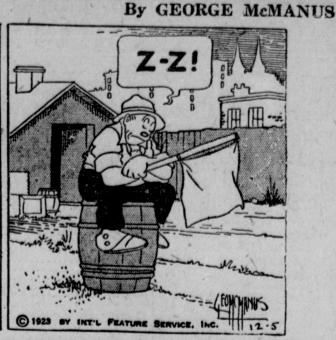

inary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving

bladder disorders. Jad Salts cannot injure anyone; a delightful lithiawater drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney disorders. By al! means have your physician examine your kidneys at least twice a year.
